Remarks

Glover Island, also known as 'Lovers Island' is a beautiful 7.5 Acre parcel of land located off the south peninsula of Grenada. The island has previously been used as a whaling station and it consists of remnants of the dock. There is also a small beach at the point for swimming. A pier can be built on the leeward side of the island. Building on the island can provide specialty use of Glover Island: Personal Island, vacation destination, and casino. Glover Island is in close proximity to the southern coast of Grenada.
