- Quiet Area

Topography

- Flat
- Undulating

Remarks

The large acreage lot is very fertile land mostly flat , one part of the land has a ridge leading to more flat land with a fresh water spring that has been dammed with a concrete catchment area. Pipes are in place to bring the natural water into an irrigation system to water the crops being cultivated.

On the land is cocoa, nutmeg, varieties of banana, citrus and year-round seasonal short crops of cabbage, eggplant, lettuce, carrots and peppers.

This land is ideal investment for an agricultural project, for agro-tourism & natural living.

This land is serviced by a new concrete road to access it easily.
