Remarks

various tropical fruit trees (soursop, ackee, mangoes, oranges, grapefruits and more), cocoa and vegetables perched in the hill tops of Mt. Rodney, St. Patrick's.

This home features spectacular sea and island views of the north as far as Carriacou on a clear day, constant breeze, high cathedral ceilings, library, entertainment room, old wine cellar in the basement and guest house.

The layout and design are ideal for a retreat, farm to table guest house or a family home offering peace and tranquility.

This is a rare opportunity to own a part of Grenada's History. It is close to Sauteurs town and a couple of beaches including Bathway Beach.
